inoxoft

TEAM EXTENSION:

Just the right people, at the right time, for the long run.

COMPARED TO OTHERS

	Market Average	Inoxoft
Average duration of Team Extension engagement	28 months	**47 months**
Average engineer tenure on the project	18 months	**34 months**
Percentage of people passed trial period	<75%	**93%**
AI Tools integration	❌ not provided ❌ people either use personal ones or not use at all	✅ **Corporate Cursor account with managed privacy settings**

GUARANTEES

FREE FIRST 2 WEEKS TERMINATION

You can cancel the engagement within the first 14 days for any reason - no explanations, no penalties, no invoices.

If the team or the setup doesn't feel right, you walk away without financial risk.

1-DAY CANCELLATION NOTICE

During the first 60 days you can stop the work with just one business day notice. No long-term lock-in, no legal friction, no financial traps.

FREE 2-WEEKS ONBOARDING FOR REPLACEMENT

If any engineer needs to be replaced, we cover the full onboarding and handover period - up to two weeks - at no cost to you.

Knowledge transfer, ramp-up and continuity are on us.

TECH STACK OVERVIEW

The following slides outline the core technology stack we specialize in.

We maintain a large, continuously refreshed pool of pre-validated engineers across this stack, enabling fast and reliable team assembly for your projects.

WEB DEVELOPMENT

Front-End & Back-End

- ReactJS
